

Investment choice form – super members

Save time, go online!

The quickest way to make an investment switch is by logging in to your account at unisuper.com.au.

USING THIS FORM TO MAKE AN INVESTMENT CHOICE

You can choose a single investment option or a mix of investment options based on your individual requirements. For DBD members, the instructions on this form only apply to your accumulation component.

Applications made on this *Investment choice form* only apply to the account you nominate in Section 1. You must complete a separate *Investment choice form* if you want to switch your investment options for any other UniSuper super or pension account(s) you may have.

MYSUPER

Accumulation 1, Accumulation 2 and Personal Account members with any part of their account invested in our Balanced option will automatically become part of MySuper. For more information, visit unisuper.com.au/mysuper.

UNDERSTANDING THE RISKS

You should understand the risks and other implications of selecting and switching your investment options. Please read the latest *How we invest your money* booklet before completing this form. We recommend you consult a licensed financial adviser before making any investment decisions.

EFFECTIVE DATES FOR INVESTMENT OPTION CHANGES

Online switches are quicker because we consider them 'received' as soon as they're submitted.

If you submit your switch via this form – whether by post, email or a financial adviser – we consider it received once it's been entered into our administration system (rather than when you email it or we receive it by post).

Changes to your future contribution or rollover strategy are effective from when they are received.

For more information, refer to *How we invest your money*, available at unisuper.com.au.

SWITCHING FEE

The first switch per account in each financial year is free. All subsequent switches will be charged a \$9.85 fee per switch.

About sector options

Sector options are less diversified and aren't intended to be used in isolation. They're intended to be combined with other investment options to build a diversified portfolio.

For example, the Australian Equity Income option might have exposure to as few as 20 entities, and Global Companies in Asia option as few as 30 entities compared to the Balanced option which has an exposure to over 1,500 entities.

If you choose to only invest in a Sector option, you may be exposed to more risk and may miss out on the benefits of the balance between risk and return offered by a Pre-Mixed option.

Target Market Determination

A Target Market Determination (TMD) for Accumulation 1, Accumulation 2 and Personal Account is available at [unisuper.com.au/pds](https://www.unisuper.com.au/pds). You can read about the type of member each of these products have been designed for in the relevant TMD.
