

Download the App for Android phones

This documentation is for the download of the App on an Android phone.

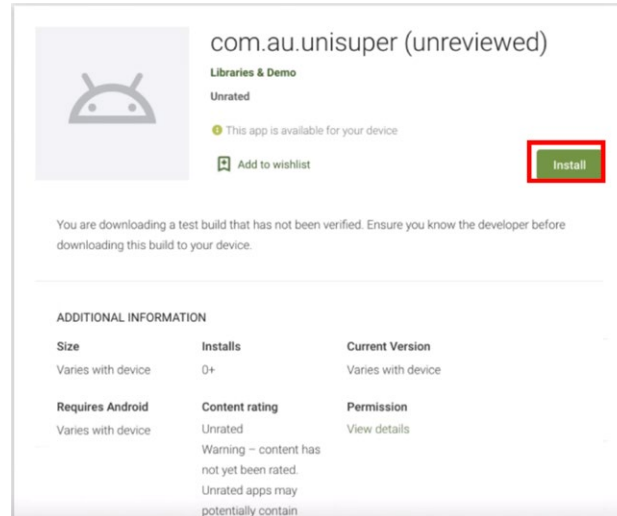

STEP	INSTRUCTIONS
<p>1 Click the following link on your Android phone that will open the Google Play Console with a screen inviting you to the UniSuper testing program.</p> <p>https://play.google.com/store/apps/details?id=au.com.unisuper</p>	<p>Click the Accept Invitation button.</p> <div data-bbox="450 842 1481 1335"></div>
<p>2 To download the UniSuper app from the Google Play Store using either of the following links - both should work in the same way:</p>	<div data-bbox="450 1370 1481 1989"></div>

STEP

INSTRUCTIONS

- 3 The Google Play Store will open on your phone.

Click **Install** to download the UniSuper app.

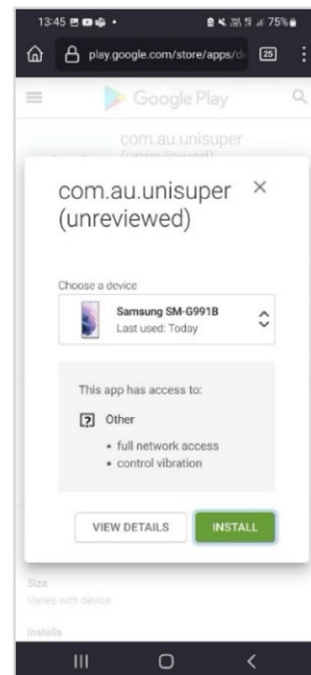

- 4 Once installed open the UniSuper app and refer to the 'What do I need to test instructions' in the link provided in your email.

Note: As new builds are released you may get emails with updated versions of the UniSuper app for testing. If a new version comes through follow the above steps to download the newer version to test.

ANDROID EDGE CASE - MULTIPLE DEVICES

Some users might have multiple devices associated with their Gmail account. If this is the case, an intermediate step might appear asking you to choose the phone you want to download it on.

Please take care to choose the correct device. Choosing a different device will install this app onto that selected device – but this might cause confusion if you are expecting it to appear on your current device. Similarly, selecting a different device on subsequent downloads (for new builds) may uninstall it from a device you had previously installed it on – again causing confusion.
