

# Responsible investment report

This report outlines our activities and actions in line with our *Responsible investment* and proxy voting policy.

In reporting on our approach to environmental, social and governance (ESG) practices and performance, we reference the <u>UN Principles for Responsible Investment</u>. These include:

- incorporating ESG issues into the investment analysis and decision-making process
- active ownership
- ESG disclosure by investee companies
- collaboration
- reporting on our activities.

# Incorporating ESG issues into the investment analysis and decision-making process

#### INTERNAL INVESTMENT MANAGEMENT

#### Pre-investment due diligence

Unlisted Infrastructure: We have funded one new investment during the six months to 30 June 2021. Due diligence included assessment of the current and future physical risks from climate change and management's ESG approach, with a particular focus on OH&S. We have the right to nominate a director to the board of this investment.

Fixed income: we met with four sustainability/green bond issuers.

#### **EXTERNAL MANAGER SELECTION AND MONITORING**

Manager appointment:

 We appointed three new external managers in the first half of 2021. Our assessment confirmed that each manager appointed undertakes robust consideration and integration of ESG into its investment management processes. Manager monitoring activities:

- A key part of our manager reviews is testing the detail of ESG analysis and level of integration within a manager's investment process. We will conduct our biennial 'deep dive' on ESG across all incumbent equities and fixed income managers in 2021.
- We discussed and analysed many key ESG issues, including: company responses to COVID-19, corporate culture, in some years director elections at AGMs, executive remuneration, climate resilience, sustainability reporting and the energy transition, worker safety, human rights in the supply chain, and modern slavery reporting. Many of these issues are long-term themes, and we discuss them with managers on an ongoing basis.
- Many of our managers are now providing regular ESG reporting on engagement and advocacy.

#### WHOLE OF PORTFOLIO ESG ANALYTICS

- We reviewed our holdings and options with respect to climate risks, weapons, ESG ratings, controversies and exposure to Sustainable Development Goals (SDG) themes.
- We published our first Modern Slavery Statement in February 2021.

#### **OTHER ESG CONSIDERATIONS**

- We addressed ad hoc member queries and NGO activism relating to climate change issues, Juukan Gorge and nuclear weapons.
- We continued to monitor and assess various tools to assist in identifying and evaluating ESG risks in the portfolio.
- We are setting climate targets for our investment portfolios.
   This will allow us to better understand what aligning to the Paris Agreement could look like.

#### **Active ownership**

#### **DIRECT ENGAGEMENT**

#### **Listed company engagement**

Despite COVID-19, we increased the ambition and scope of our ESG engagement. We engaged with company CEOs, senior executives, directors and chairs on a range of both ESG-related and broader commercial matters. We also had 68 company meetings to discuss specific ESG-related issues. Many of the issues we raised are areas of ongoing dialogue and engagement.

#### **Unlisted company engagement**

We continued to monitor and encourage our unlisted investments to improve their ESG reporting (including workplace health and safety).

#### **Private equity**

We have a small allocation to private equity (PE) (less than 0.5% of the Fund) and we have made our first commitment in some years to a new PE fund in this period.

#### THIRD PARTY ENGAGEMENT

#### The Australian Council of Superannuation Investors (ACSI)

In addition to our own direct engagement with companies, ACSI (of which we're a founding member) conducts extensive engagement and research activities on behalf of its members. In the period, ACSI published reports on Climate Risk Transition and COVID-19 response. ACSI also meets with most Australian listed companies ahead of their AGMs and produces proxy voting advice on all resolutions. It has a particular focus on board composition, diversity, succession planning and remuneration.

We attended 21 company meetings hosted by ACSI. For more detail about ACSI's engagement and impact, visit <a href="www.acsi.">www.acsi.</a> org.au to read their annual report.

#### UniSuper submission to Treasury Consulation Paper on Greater Transparency of Proxy Advice

In June 2021 UniSuper made a submission in relation to the Treasury Consultation – Greater Transparency of Proxy Advice, outlining our perspective on the role that proxy advice plays in our proxy voting process. As described in this report and our proxy voting policy, we regularly engage with our investee companies on a range of commercial, strategic and ESG matters and we exercise all proxy votes for listed Australian and international share holdings.

#### **CGI Glass Lewis**

We use CGI Glass Lewis for engagement and advice on international proxy voting matters.

#### **Investment managers**

Our external managers also engage with investee companies. We regularly discuss and compare corporate engagements with our external managers in order to assess differing views and test consistency (and progress).

#### **KEY ENGAGEMENT ITEMS**

#### **ESG** disclosures

In the last six months, we provided sustainability reporting feedback to Seek, REA Group, Cleanaway, Northern Star, Oz Minerals, Santos and Reliance Worldwide.

#### Climate Action 100+

The Climate Action 100+ is a global investor collaboration, facilitated (in Australia) by the Investor Group on Climate Change. It requests companies to report on and demonstrate alignment with the goals of the Paris Agreement. This engagement focuses on the 100 companies with the highest scope 1, 2 and 3 emissions globally, plus 61 other companies identified as having material climate related risks. We're a lead investor for one company, co-lead for another and are a supporting investor for four others as part of the Climate Action 100+. Visit <a href="https://www.climateaction100.org">www.climateaction100.org</a> for more information.

#### **Climate League 2030**

Climate League 2030 is a ten-year, private sector-focused initiative coordinated by the Investor Group on Climate Change (IGCC), to support and act towards a goal of reducing Australia's annual greenhouse gas emissions by 45% by 2030. Launched in October 2020, we support the initiative's goals and commit to the following actions:

- We'll invest in line with the goals of the Paris Agreement.
- We'll integrate Paris-aligned emissions reduction goals into our investment policy and business strategy.
- We'll collaborate with investors, clients and companies to deliver absolute emission reductions.

## ACSI Rights and Cultural Heritage Risk Management Working Group

UniSuper is part of ACSI Rights and Cultural Heritage Risk Management Working Group. It aims to develop a policy statement intended to guide investors in their engagement with investee companies and set expectations for the companies around their relationship with First Nations People - in the resources sector and more broadly. Monitoring disclosures and practices against these expectations will help investors better identify and mitigate the financial risks that occur as a consequence of poor or inadequate company engagement with First Nation People.

#### Modern slavery and human rights in the supply chain

The Modern Slavery Act has been in effect since 1 January 2019, and applies to all Australian companies with annual revenue above \$100 million. The term 'modern slavery' refers only to the worst forms of exploitation and not to other serious human rights breaches like denial of worker safety, denial of freedom of association, or underpayment. Examples of modern slavery would, however, include forced labour where victims are made to work through violence, intimidation, confiscation of passports, and debt bondage (where a person is forced to work for free to pay off a debt).

We regard the companies we invest in as part of our supply chain. We've surveyed all of our external managers and our large holdings and published our first Modern Slavery Statement in February 2021.

#### Company culture—COVID-19

Since the outbreak of COVID-19, and throughout the ensuing pandemic, we've been engaging with company management and boards with respect to their response and approach to the pandemic. We've had wide-ranging discussions around culture and remuneration, and how boards can have visibility of organisational culture and stakeholder management.

#### **Remuneration policies**

In addition to pre-AGM meetings, we provided feedback to Qantas, Dexus, RIO Tinto, Northern Star, Woodside Petroleum, Santos, Bluescope Steel, GPT, Scentre Group, Spark Infrastructure, Sydney Airport, Origin, Reliance Worldwide, Qube and Suncorp.

#### Other areas - ongoing and emerging

- Waste management plastics and the circular economy
- · Data security and digitisation
- · Cultural heritage management
- Sustainable food systems including antibiotic resistance, climate resilience and adaptation, alternative protein
- Automation and robotics
- Franchising

#### Case studies

#### SUSTAINABILITY APPROACH & DISCLOSURES

A longstanding element to our company engagement program is encouraging and reviewing sustainability disclosures. It provides a useful lens to view how companies operate and their strategic priorities. Improving sustainability disclosures are linked to better investment returns and are useful documents for communicating with staff and the wider community as well as investors. Sustainability disclosures should be fit for purpose, provide details about how risks are managed, metrics that measure the effectiveness of these activities and targets to identify gaps and priorities. We like to also see case studies of both successes and learnings that bring to life activities across the organisation.

The following companies are examples of companies that did not have detailed sustainability disclosures prior to our initial engagement.

| COMPANY   | ENGAGEMENT   | OUTCOME   |
|-----------|--|---|
| Cleanaway | Length of Engagement  Since 2019  Focus areas: Circular Economy Decarbonisation strategy  People and Culture Employee retention and tenure Gender diversity  | Improvement on disclosures transparency on<br>Sustainability Report   |

We commenced engagement with them to work towards best practice sustainability approach. |

#### **CULTURAL ISSUES**

Culture is a very broad and difficult to define concept but the impact of culture on company performance can be substantial. Cultural issues can be many and varied, encompassing topics like employee engagement, customer satisfaction and stakeholder management. In 2018 The Royal Commission into Misconduct in the Banking, Superannuation and Financial Services Industry highlighted the impact that poor culture can have on companies.

Building on our engagement last year with Rio Tinto following its failure in its management of cultural heritage sites, we detail below further engagement over this period.

| COMPANY                         | ENGAGEMENT   | оитсоме  |
|---------------------------------|--|--|
| Rio Tinto<br>(RIO)              | Length of Engagement: Since 2020  Key topics - Juukan Gorge: Management Accountability Remuneration People and culture Heritage Management | Following extensive engagement directly with us and in collaboration with other investors, RIO has made significant changes to its cultural heritage management processes to ensure this sort of incident is prevented. These changes include:  Reviewing the classification of over 1,000 sites; if in doubt sites are to be reclassified as protected  Moving accountability for managing traditional owner relationships back to mine managers  Improving heritage management plans to strengthen free, prior and informed consent processes and decision making  Modernising agreements with traditional owners to improve transparency and help redress power imbalances  Board consultation with traditional owners on a new indigenous advisory group to advise on negotiation and alternative dispute resolution pathways  Board changes including departure of Chairman and new role of Senior Independent Director for Rio Australia  Management changes including new Group CEO, Head of Iron Ore and Corporate Affairs.  We voted against a director in May 2021 AGM to demonstrate board accountability for this issue. |

We true partnership with local communities, rather than relying on approval and laws  |

#### **SOCIAL & COMMUNITY ISSUES**

Alcohol consumption is an endemic problem in the Northern Territory. Establishment of a liquor store established within a close proximity to the dry communities poses high risk of increasing the social and community risk and its impact to the lives of Aboriginal and Torres Strait Islander people within those communities. Five years ago, Woolworths submitted an application to open a Dan Murphy's store near three dry communities in Northern Territory.

Despite overwhelming opposition by several community groups due to its risks to vulnerable local communities, Woolworths persevered with its application. In 2020, Woolworths announced a change of its proposed store location a few kms away from the local communities.

| COMPANY                 | ENGAGEMENT  | OUTCOME  |
|-------------------------|---|--|
| Woolworths - Dan Murphy | Length of Engagement  Since early 2019  Key topics:  Alcohol abuse and Indigenous Communities | <ul> <li>Woolworths commissioned an independent panel review to review the matter.</li> <li>It recommended not to pursue the store opening and Woolworths to review and enhance its engagement with the government and local communities, and its governance and risk procedures.</li> <li>Woolworths decided to withdraw its application early in 2021</li> </ul> |

#### **JAMES HARDIE - ASBESTOS LIABILITY**

James Hardie is required to make contributions to its Asbestos Injuries Compensation Fund (AICF), relating to its use of asbestos in building products until 1987. These payments are capped at 35% of annual free cash flow. We regularly engage with the Company on various issues, including to assess the status of the AICF in terms of its funding, liquidity, capacity to pay claims and trends in recent claims.

| COMPANY      | ENGAGEMENT  | OUTCOME   |
|--------------|---|---|
| James Hardie | Length of Engagement  Since 2004  Key topics: Asbestos funding Community Product and safety | In our last engagement during this period, we were pleased to note that the AICF is well funded and that it is not required to draw on any external debt to meet claims. We also confirmed with the Company that it continues to maintain its involvement with and make donations to the Asbestos Disease Research Institute, dedicated to research, clinical sciences and public health responses to mesothelioma. |

#### **WORKPLACE HEALTH AND SAFETY**

Workplace health and safety is a key indicator of management performance. A company's overall performance is determined by various factors, many of which are outside of management's control. Health and safety is very much within the scope of management's ability to influence, albeit there can always be adverse incidents which occur even with the best safety protocols. We regularly engage with companies to ensure that health and safety is properly managed, and, where necessary, appropriate accountability is taken.

Our timber portfolio consists of three unlisted assets (Taumata, Tiaki and Hancock Victorian Plantation) actively managed by our investment team. Active asset management encourages greater focus on operations, including helping to improve the safety culture in our investments. Given our sizable equity interest, we have significant board representation across our three timber companies. One of our nominee directors is Chair of the Health and Safety Committee on these boards, with significant experience in health and safety in various industries. Since her appointment, various initiatives have been introduced, which has seen safety performance improve significantly. Further, as of June 2021 Taumata achieved one year Workplace Sentinel Incident free operations and Tiaki achieved two years of Workplace Sentinel Incident free operations.

### **Proxy voting**

As an active owner, we seek to exercise all proxy votes for listed Australian and international share holdings. You can find our Australian and international proxy voting process in our Responsible investment and proxy voting policy.

#### **SAY ON CLIMATE**

In 2020 the concept of a "Say on climate" vote at company Annual General Meetings (AGMs) was introduced. This was to be a non-binding company proposal that sought investor approval for the company's climate strategy. The Children's Investment Fund Foundation introduced the first shareholder resolution seeking a non-binding "Say on climate" vote at Aena (a Spanish airport company), and this year we have seen a

number of global companies put forward similar resolutions. Within Australia, several companies (including Woodside, Santos, Rio Tinto and BHP) have indicated their intention to have a say on climate vote at their 2022 Annual General Meeting.

We are also working with our global proxy voting advisor and will reach out to external managers to communicate our support for these types of resolutions. Due to the nascent nature of these resolutions, our proxy voting advisor initially advised against say on climate votes at companies where climate risks and transitioning was not a material risk to their business. We have put in place a screen to alert us to "say on climate" votes which allows us to review the company's approach, and to vote accordingly. We expect that through time, our expectations of company decarbonisation strategies will increase.

#### **SUMMARY OF VOTING RESULTS**

#### **Australian voting outcomes**

We voted 100% of our shares 'against' the remuneration reports of Freedom Foods Group, Eclipx, Cimic and Rio Tinto. We also voted against a director at RIO's May 2021 AGM.

Appendix 1 lists all the resolutions we voted on — at ASX listed company meetings — throughout the period.

#### **International voting outcomes**

We exercise our proxy voting rights for shares held in international share markets on an ongoing basis throughout the year.

Over the last six months, we—together with our managers—voted on 15,814 resolutions at 1,469 company meetings across 47 countries outside of Australia (see Table 2A for a summary).

When comparing the number of international meetings that we voted in this period, there were ~500 fewer companies than in the same period last year. This was largely due to the defunding of an international passive portfolio.

Appendix 2 provides detail regarding how we cast our votes at our 100 largest international holdings that held meetings throughout the period. (Changes in shareholdings and stock performance mean that top 100 holdings change throughout the year.)

If interested, members can request information on how we voted at specific companies and we'll happily provide it.

| TABLE 2A: SUMMARY OF INTERNATIONAL VOTING           |                                   |         |                         |         |        |      |    |

<sup>\*</sup> Multiple managers can hold a security with different (and equally valid) views on how to vote. We have the ability to override manager votes when needed. The numbers shown reflect the prevailing vote for a particular resolution. For example, if the majority of shares are voted 'for', we will report 'for'.

#### **SHAREHOLDER RESOLUTIONS**

Shareholder resolutions are becoming a more common tool when engaging with companies across the world. When determining how to vote on shareholder resolutions, we consider the following factors:

• The legal framework in the jurisdiction. In Australia, there is no provision for non-binding advisory shareholder resolutions in the Australian Corporations Act. Most Australian proposals request an amendment to the constitution to facilitate shareholder resolutions, in addition to the specific request. We collaborate with shareholder groups (ACSI in Australia; the Asian Corporate Governance Association [ACGA] in Asia) to encourage appropriate mechanisms are in place.

- What the company has already committed to, and is doing. If
  a company is already meeting the substance of the request,
  our practice is to support the company (i.e. vote against the
  shareholder resolutions). We will always urge companies to
  be public about their actions and commitments but will rely
  on the word of the company through private engagement.
- The substance of the request. We will not support frivolous or vexatious resolutions. In some jurisdictions, shareholder proposals are not subject to any oversight, which means, for example, that there can be proposals regarding the food provided at the AGM.

Table 2B below summarises the shareholder resolutions on which we voted in the last six months (see Appendix 3 for a full list).

# Collaboration and promotion of ESG and responsible investment

The ESG community is highly collaborative and recognises that when investors work together, impact is significantly enhanced.

We're an active and engaged member of a number of different forums, including:

- ACSI, member of Board and Member Council
- Investor Group on Climate Change (IGCC), member of Management Committee and Thought Leadership Working Group
- Responsible Investment Association Australia (RIAA), member of corporate engagement working group
- Asian Corporate Governance Association (ACGA), and
- Principles for Responsible Investment (PRI), member of a working group on plastics.

Our ESG team has participated in a number of collaborative initiatives and activities which seek to promote ESG and responsible investment. As a result of COVID-19, many conferences have moved online. This has allowed the team to attend more conferences, both local and global, than was previously possible.

#### In the last six months, we've:

- Attended 46 collaborative ESG briefings, roundtables and conferences
- Presented at 3 conferences
- Presented at 1 UniSuper Corporate and Member Events
- Made one submission to the government

- shareholder and civil society activism, and
- Indigenous land rights and Juukan Gorge.

## UNIVERSITY RESEARCH REGARDING SUSTAINABILITY REPORTING

We participate in a range of university research projects regarding a variety of ESG / responsible investment related matters.

We did not participate in any academic studies over the period. However, as the fund for Australia's higher education sector, we believe it's important to make ourselves (and our practical investment experience) available to our member academics in the pursuit of their research, where appropriate.

#### **REPORTING OUR ACTIVITIES**

We're committed to being transparent regarding our approach to ESG, and to reporting on the work that we do in this area. We've reported our proxy voting results for close to 15 years, and for the last eight have prepared a more detailed half-yearly responsible investment report.

#### **Member choice**

In addition to integrating ESG considerations across all investment decisions (portfolio-wide), we also provide for member choice in our Accumulation products. We understand that our members have a range of different values and it's important to consider these preferences in the investment options we offer.

As at 30 June 2021, these options were meeting their return objectives. Due to the restrictions of the portfolio, while the long-term return objectives (as per Table 3) are the same as their mainstream counterparts, we expect that differences in returns will occur, and potentially persist, over multi-year periods.

# Signed the 2021 Global Investor Statement to Governments on the Climate Crisis Attended numerous broker ESG research meetings

We regularly participate in informal ESG-related dialogue with our peers on a broad range of matters. It's often this interaction which is most insightful, but difficult to quantify.

The briefings and conferences we attended pertained to a wide variety of matters, including:

- climate and carbon risk, adaptation and resilience
- facilitating corporate sustainability roundtables
- modern slavery reporting
- · electric vehicles and automation
- renewable energy and battery storage
- waste and recycling
- impact investing
- human rights, workers' rights, labour standards and wages fraud
